TIME TO GET VACCINATED

Introduction

Now a days India is suffering from second wave of covid 19 . People are getting problems for finding beds in hospital due to lakh of information. Also goverment started vaccination program. for this there is need of website which can solve the problems of finding beds and booking appointment for vaccination.

We have build website from which people can book the beds, do the appointment, ask the questions and see the corona status.

Tech Stacks

Front-end

- HTML5
